

Best Practice

1. Title of the practice

Each webinar, programme begins with university song.

2. Objectives of the practice

Mahila Kala Mahavidyalaya is a girls college, online and offline webinars are organized on academic topic through various departments of the college. University song singing practice is always there, because the students and teachers of another states should know about the University.

3. The context

Our university song is written by famous poet Dr. F.M. Shinde(Maharashtra). This song inspires students to progress their education with the help of hard work. This song gives the energy about higher education to us. So it is our best practice to start each webinar, programme with University song.

4. The Practice

Webinar, programme can effectively impress upon the participant with the help of singing University song. This is become respect about University. Hence our best practice is "each webinar, programme begin with University song".

5. Evidence of source

The best practice has been found to create a kind of chill in the program. Each program runs with ethics and moral support.

6. Problems encountered and resources required

University song seems regional, so many times it is difficult to understand the lyrics and meaning of this song at state level and International level, it is better if every university song is performed in regional language & English.

7. Notes

To maintain the interest towards the university and cultivate good students with the help of higher education.

2) Title of the Practice:-

Plantation on an occasion of National Festival

Objectives :-

- 1) To increase interest among students about tree plantation.
- 2) To encourage and engage students, staff and community about scientific tree plantation for increasing green culture and coverage.

The Context:-

Every social and educational programme began with tree plantation in the college such as Independence day, Republic day, University foundation day, University Nam Vistar day etc.

The Practice:-

Tree play significant role in maintaining equilibrium of the environment. On occasion of National festival plantation programme practice organized by college in the primacies every year college planned to carry out tree plantation drive on national festival as well as in the rainy season i.e June July every year. The plant growth is checked by continuous monitoring by the college. Students and staff actively involved in growing and monitoring the plants.

Evidence and success:- by conducting such programmes college campus enriched with green plants.
